

## EICOSE

European Institute for Complex Safety Critical Systems Engineering

## **An Introduction to EICOSE**

Louis-Claude Vrignaud EICOSE Chairman (June 1, 2008 – May 30, 2009)

Assises Franco-Allemandes de l'Embarqué 9 juin 2009

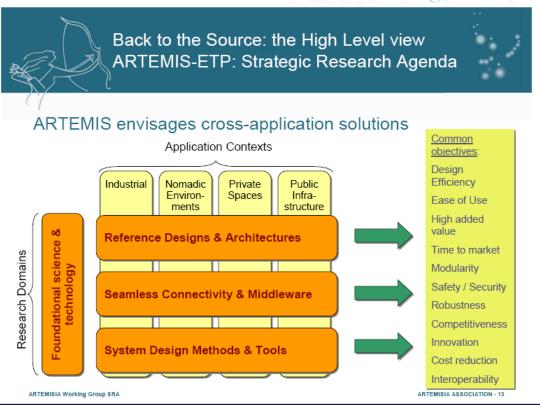

# Addressing

#### EICOSE

European Institute for Complex Safety Critical Systems Engineering

## embedded systems

Advanced Research & Technology for EMbedded Intelligence and Systems

## **ARTEMIS**

### ARTEMIS Sub-Programmes (ASPs)

- 1. Methods and Processes for Safety-relevant Embedded Systems
- 2. Person-centric Health Management
- 3. Smart Environments and Scalable Digital Services
- 4. Efficient Manufacturing and Logistics
- 5. Computing Environments for Embedded Systems
- Security, Privacy and Dependability in Embedded Systems for Appliances/Networks/Services
- Embedded Technology for Sustainable Urban Life
- 8. Human-centric Design of Embedded Systems

ARTEMISIA Working Group SRA

ARTEMISIA ASSOCIATION - 15

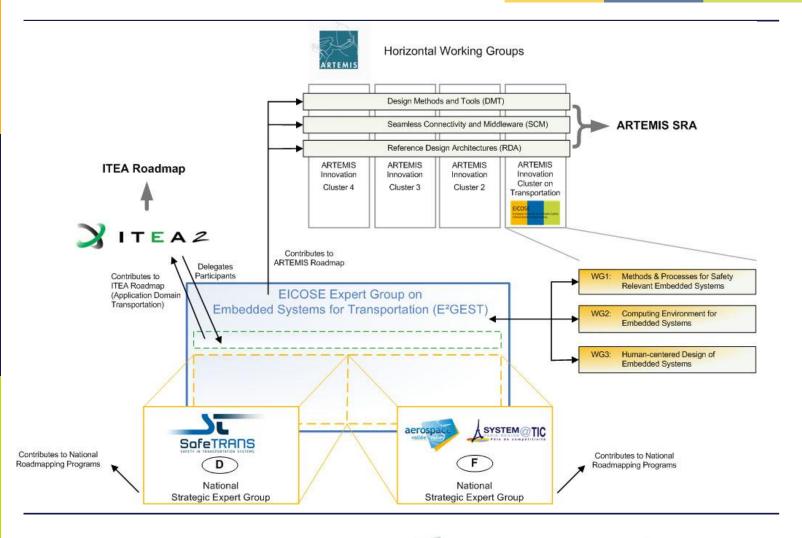

## EICOSE

European Institute for Complex Safety Critical Systems Engineering

## EICOSE is open

## join EICOSE

### 60 large enterprises, 35 SMEs, 25 research centers

EICOSE has been recognized by Artemis as the first innovation cluster in the field of complex systems for transportation.

The interests in joining EICOSE are:

- To share roadmaps
- . To elaborate R&D European projects
- To be part of an important community in the transportation domain (the lists of clusters' members are available on the respective clusters' websites).

#### EICOSE is open to welcome:

- New Clusters, already recognized in the field of EICOSE
- Experts from reasearch institutes and industrial companies.
- Associated Members: Organisations members of ARTEMISIA
  - Participation to EICOSE Working Groups
  - Represented in the Steering Board

## **EICOSE**

European Institute for Complex Safety Critical Systems Engineering

#### Welcome to EICOSE

System@tic Paris-Region (<u>www.systematic-paris-region.org</u>)

and the German competence cluster SafeTRANS (<u>www.safetrans-de.org</u>).

EICOSE has been awarded the title of ARTEMIS Innovation Cluster on Transportation, being the first institute to which this title was bestowed. As such, EICOSEs responsibility is to help shape that part of the ARTEMIS Strategic Research Agenda concerning processes and methods for complex safety critical systems in the transportation domain (Automotive, Aeronautics, Railways).
